NEW FOR 2018

Exhibitions

20 Stephenson Discovery and Learning Centre

An audio and visual development of transport and the tram, along with

people's changing lives.

22 Arms to Armistice

The exhibition reflects the challenges women faced to be treated as equals, as well as their quick dismissal when the men returned from War. We examine how men reintegrated into working life, and how the tramways moved into their post war phase of delivering

public transport. The exhibition acknowledges the sacrifice of those men, who gave their lives for King and Country, and never returned to work on the trams.

22 Survive and Thrive – the Electric Era

Details how light rail vehicles have been re-introduced to UK cities.

Every week day we have timed guided tours and talks by our knowledgeable team of guides who are on hand to answer any questions you may have. (Subject to availability and not available during special events)
